# MARIN INNOVATION SEMINAR

Wednesday October 5, 2022

*“Learn to fail fast if you want to succeed sooner” (David Kelly, Stanford University)*

Can we create a learning environment in our facilities to explore new floating technology more productively? This seminar puts the spotlight on the unique combination of interactive workshops, explorative model tests and simulator studies for the purpose of accelerating the development of your innovation.

Several innovative projects will be presented to discuss the challenges and the role that MARIN plays now and in the future.

Presentations will be given by MARIN experts and guest speakers

Please turn over for the preliminary programme

## Registration

You can register for the seminar until October 1st, 2022

Participation is free of charge.
